MIRTEC FREE SERVICE

BENTEC ANNOUNCE FREE SERVICING FOR ALL UK/IRELAND MIRTEC CUSTOMERS FOR THE NEXT TWO YEARS.

As of September 1st 2024 Bentec the exclusive partner for Mirtec in the UK and Ireland, will be offering free service on all Mirtec equipment for the next two years. This includes all models and ages of equipment in 2D or 3D formats. Bentec will use 3D calibration tools, Glass mapping, and greyscale checking as well as free software upgrades where applicable. Each customer will receive a full-service breakdown and a certificate proving the equipment has been serviced by the official Mirtec partner.

Also, any customers wishing to upgrade their old Mirtec equipment will receive an excellent trade in against their old model, as and when they wish to take advantage of this. The service visits will cover all Mirtec systems which the customer currently has.

Bentec will also offer the free 2-year service cover on each new Mirtec system purchased up unto September 2026. Bentec's expertise with Mirtec spans seventeen years, and they have nearly 160 machines installed in their territory. They have the latest Mirtec equipment at their demonstration facility in Yaxley, near Peterborough where customers can visit and see their own boards being inspected by the industry's leading technology.

To register your company for this free service simply email support@Bentec-int.com and we will schedule the appointment with you.
